Angioedema, an uncommon side effect of Ace-Inhibitor use

Published On: October 11, 2018 | Pages: 001 - 003

Author(s): Shaista U Ahmed*, Ayobami Akenroye And Matthew McNabney

Angioedema is a rare but life-threatening side effect of angiotensin-converting enzyme inhibitor (ACEI). It can lead to airway compromise which can be fatal if not treated emergently. CASE: A 69-year-old woman presented to the ED with swollen lips, tongue and change of voice. Her home medications included aspirin, amlodipine, lisinopril and atorvastatin. She was treat ...
