Truly Integrated Care Centred on the Individual: My Personal Vision for Wales

Published On: June 21, 2016 | Pages: 015 - 017

Author(s): Gareth P Morgan*

This paper offers my personal vision of truly integrated health and social care centred on the individual for Wales. This vision of an integrated health and social care system is simple - a seamless and efficient service. Wales in particular has a strong opportunity to develop a truly integrated health and social care system with the following key elements. A)

Shared ...

Ambulatory Monitoring of Blood Pressure in Occupational Hypertension

Published On: February 16, 2016 | Pages: 008 - 008

Author(s): Saturnino Suárez Ortega*, Noel Lorenzo Villalba and Saray Hernández Valiente

Stress is considered to have a strong impact on changes in blood pressure through overproduction of catecholamines during working hours [1,2]. We are presenting the graphical behavior of blood pressure of two patients. In both cases hypertension is present exclusively during working hours. The first graphic correspond to a 39 year old nurse working 7 hours (Figure 1) ...
