Legal analysis on the protection and development of the spotted seal population from a multi-dimensional perspective

Published On: February 18, 2023 | Pages: 011 - 015

Author(s): Zhaobin Pei* and Xin Sun

Affected by human activities, the living environment of aquatic wildlife in Bohai Bay and Huanghai Bay of our country is deteriorating day by day. In accordance with the animal protection law and other relevant laws and regulations, our country has formulated an action plan and an action plan for the protection of leopard seals. The Action Plan is based on the multi-d ...

Medication-related osteonecrosis of the jaw-A case report and literature review

Published On: February 21, 2023 | Pages: 016 - 021

Author(s): Chieh Chen* and Da-Ming Liao

Osteoporosis is a skeletal disease caused by changes in the structure of the human skeleton, resulting in fragile and easily fractured bones. Because it is more common in postmenopausal women or the elderly, fractures may cause disability in the elderly, resulting in reduced quality of life, bedridden, or increased mortality. Therefore, the treatment of osteoporosis i ...

Polar and extrahilar renal arteries: A case report

Published On: January 27, 2023 | Pages: 001 - 003

Author(s): Yoanna Vladimirova Tivcheva*, Mihail Angelov, Nikolai Krastev, Cvetomir Kirilov, Dimo Krastev, L JeleV and A Apostolov

Introduction: The vascular system has a high frequency of variations, which are of interest to both anatomists and clinicians, as well as surgeons. The renal vasculature is quite variable and given the significant number of variations, the latter has proven difficult to classify. The conflicting terminology is often the cause of a poor understanding of the clinical im ...
